SUMMARY

PHP Developer focused on building reliable web applications with PHP, MySQL, JavaScript, Bootstrap and REST APIs. Software engineering fundamentals combined with hands-on experience in debugging, database design, system support and deployment. Author and maintainer of open-source tools on GitHub.

EDUCATION

Ho Chi Minh City College of Economics and Technology (HOTEC) — **Ho Chi Minh City**
Software Engineering — *Aug 2023 – Mar 2026*

- GPA: 3.6/4.0 — High Distinction.
- Recognized as an Excellent Student for four consecutive semesters.
- Built practical projects across web, desktop and Android development.

EXPERIENCE

Z1 Computer Joint Stock Company — **Ho Chi Minh City**
Technical Support Associate — *Sep 2025 – Oct 2025*

- Maintained website content and supported performance and user experience improvements.
- Diagnosed hardware and software issues to reduce operational downtime.
- Supported KiotViet POS, e-commerce listings and technical workflows.

PROJECTS

Automated VPS E-commerce Platform — **PHP, MySQL, Bootstrap, jQuery, REST API**

- Full-stack application for configuring, purchasing and automatically activating VPS services.
- Handles server options, payment verification, instant credential delivery and revenue reporting.

QR Wallet (Android) — **Java, MVVM, Room, CameraX, ZXing**

- Centralizes banking QR codes with biometric authentication, encrypted local storage, QR scanning and Google Sign-In.

Driver's License Quiz App (Android) — **Java, Android XML, JSON**

- Offline study app with topic-based quizzes, 30-question mock exams and progress tracking.

Store Management System (Desktop) — **C#, SQL Server, 3-Tier Architecture**

- Led a five-member team; designed the database, assigned tasks and reviewed code. Team project score: 9+/10.

OPEN SOURCE

- **Termward** (Go, Electron) — open-source SSH manager for many servers with proactive health alerts and SSH key management. github.com/nguyenquocanhz/termward
- **DomainGateway** (Python, Flask, SQLite) — self-hosted domain expiry tracker reading registries over RDAP/WHOIS, with Telegram alerts.

SKILLS

- **Backend:** PHP 7/8, REST API, Authentication, Payment Integration, Backend Automation
- **Frontend:** HTML5, CSS3, JavaScript, Bootstrap, jQuery, Responsive UI
- **Database:** MySQL, SQL Server, Database Design, Stored Procedures, Query Optimization
- **Tools:** Git, GitHub, GitLab, GitHub Actions, CI/CD, VPS Deployment
